

## Amazing Mom Contest Winners

### Susan

Well, where do I begin? Susan like most moms who has raised her children, and never seems to grow tired of all the daily duties of a mom. Amongst these duties this “Amazing Mom” has taken on the responsibilities of a foster care mom. In the past ten years, she has taken in many children, some short term and some long term. Currently, three foster children are in her care, a thirteen and eleven year old, and a nineteen-month-old baby boy. The baby has been with us most of his life and has deeply touched our hearts! He will be leaving our home at the end of the month to go back with his biological parents. And even as I start to tear up, as I write this, I get the strength from the words my wonderful wife Susan often says to me, “Michael, where would he be without us, and think of the great start we’ve given him!” And she says this calmly and yet hurts as much as I do.

What a great wife, a wonderful person and a “Super Amazing Mom.” She always thinks of the many children first and what is best for them.
